

## Parallel Spagetti Decode Challenge

Box	Word	Question	Directions...		
A1	line	Which option to ls makes it list entries by column?	S: -x	SE: -c	E: -C
A2	why	Which tool did Linus Torvalds create?	W: git	S: bzip	E: gcc
A3	characters	The S in SRAM stands for...?	S: static	SE: small	E: shared
A4	what	44 in decimal, becomes what in binary?	W: 101100	S: 010110	E: 011000
A5	cat	Which tool would you disassemble a file with?	W: hexdump	S: objdump	E: asmdump
A6	curl	How big is an Ethernet header mostly, in bytes?	W: 20	S: 14	E: 40
B1	delete	Which uboot command is usually used to start the kernel?	S: bootm	SE: run	E: kernel
B2	specifies	Was the 386 introduced the year before the ARM1 ?	S: no	SE: yes	E: same
B3	explains	How fast bit rates does the 802.3ba standard specify?	W: 100 Gbit	S: 10 Mbit	E: 100 Mbit
B4	random	Which is <i>not</i> an ARM instruction?	W: UXTAB	S: EIEIO	E: NOP
B5	option	Which year was the first K&R C book published?	W: 1971	S: 1987	E: 1978
B6	sed	Which year was Monty Python started?	W: 1974	S: 1964	E: 1969
C1	command	Tell gcc to stop after preprocessing with this option	SW: -P	S: -S	SE: -E
C2	flag	When was curl started?	W: 1989	S: 1998	E: 2001
C3	command	Which alternative says 'hej' in ASCII?	W: 6A6568	S: 676469	E: 68656A
C4	line	How many open source projects does ohloh.net count?	W: 100K	S: 650K	E: 6500K
C5	help	What does the B stand for in BIND?	W: Berkeley	SE: Basic	E: Bind
C6	option	Which was the first non-x86 port of Linux?	W: SPARC	N: Alpha	E: m68k
D1	specifies	In which dir does the kernel invoke "init" as first choice?	W:/sbin	SE: bin	S: etc
D2	POST	A git command that reverts local edits of a single file ?	W: checkout	S: reset	SE: confirm
D3	alphabetically	A git command that applies patches from a mailbox?	W: mb	S: am	E: apply
D4	sorts	Which option to awk specifies the field separator?	W: -s	S: -d	E: -F
D5	tar	Which alternative is a boot environment?	W: PXE	S: PKI	E:IVI
D6	african	What is the average speed of a swallow?			
E1	requests	How short is a lightfoot?	W: 1 ns	SE: 1 us	S: 1 ps
E2	spell	In which numerical system is the base 10?	W: decimal	S: hexadecimal	E: octal
E3	what	Identify the output of printf("%u\n", 0x20 << 3);	N: 4	S: 32	E: 256
E4	tr	Which one is <i>not</i> a linux file system?	W: ramfs	S: pipefs	E: dumpfs
E5	which	What's the output from "echo 456   tr 654 321" ?	W: 321	S: 123	E: 333
E6	flag	<b>GOAL!</b>
